Editors of Richmond Dispatch: Gentlemen,-Will you do the public a favor by giving them an intelligent translation of the inscription on Hollywood Monument, "Numini et Pairie Asto"? By complying you will increase the knowledge of the hving, and do justice to the dead. SUBSCRIBER.

Respectfully, The meaning is, "I stand for God and the country." We once asked the late John M. Strother whether he had a hand in selecting this inscription, and he said "no" in such a way as to imply that he did not admire it. How "numen" came to mean a god or divinity may be guessed at, "A nod" [numen] from Jupiter was the sign and promise of a god. However, we have stated what the inscription was intended to mean, and that is enough. For aught that we know to the contrary, the objections to the inscription are the result of a want of full information. What says Professor Harrison, of Richmond College? Or who will tell us all about it? Perhaps Gordon McCabe, of Petersburg, will.

PLAIN TALK FROM THE WEST .-- [From the Indianapolis Sentinel.]- Now, then, if there are Democrats who propose to surrender to Hayes, Hoar, Blaine, Robeson, Garfield & Co., they might as well commit hari kari in Washington, and go to the devil by the shortest route, for their constituents will bury them face downward, so that if they should scratch out they would come to the surface upon the opposite side of the globe. So far the Democratic majority has made a good record-a record that will stand any amount of investigation. To stand by it, to battle for it, will be regarded as the highest evidence of patriotic devotion to the welfare of the country. To back down will be treason.

Some Indian mounds, supposed to be three or four thousand years old or so, were recently opened near Beloit, Wisconsin, and the first thing the excavators dug out were a couple of railroad passes and an autograph-album. Thus we see the early dawn of remote civilization mingles with the gray shadows of the wons that-of the zons—the zons—the gray shadows of the zons. Eons. Gray shadows of the zons. Hawkeye. Hawkeye.

It is possible to do this even in regions of country where miasma is most rife, and where the periodic fevers which it causes assume their most formidable types. The immense popularity of Hostetter's Stomach Bitters is very largely attributable to the fact of its efficacy as a remedy for chills and fever, bilious remittents, and as a preventive of the various forms of malarial disease. In those portions of the West and South where complaints of this nature prevail, and in the tropics, it is particularly esteemed for the projective influence which it exerts; and it as been very widely adopted as a substitute for the dangerous and comparatively ineffective alkaloic sulphate of quinine. Physicians have not been among the last to concede its merits, and the emphatic professional endorsements which it has received have added to the reputation it has obtained at home and abroad.
